PROJECTS

Real-Time Chatbot Application — [LINK](#)

- Developed a real-time chatbot application using the MERN stack
- Implemented instant messaging with WebSockets and Socket.IO to enable low-latency responses.
- Designed a responsive React.js user interface with modern chat features for improved user experience.
- Built a Node.js and Express.js backend for message handling and integrated MongoDB for chat history storage.

Travel Booking Management System — [LINK](#)

- Developed a RDMS for managing customers, employees, destinations, and bookings.
- Integrated multiple transportation modes with scheduling and availability tracking.
- Implemented secure payment processing with support for multiple methods and transaction records.
- Automated booking management including reservations, status tracking, and confirmation generation using SQL queries.

CERTIFICATES

- | | |
|----------------------------------|---------------------|
| • Database Management System | Infosys Springboard |
| • Cloud Foundations | AWS |
| • AI with Real-time App Projects | Indoskill |

Additional Information

- Winner of a contest conducted by Club Cloudzilla during the college fest.
- Contributions of Art works for college fests as a Member of the Art Club.
- Participated in community service activities such as rural cleaning drives, hospital support, school programs and blood donation camp as a core member of NSS
